

ECO Dashboard Solution

What Can Xavor's ECO Dashboard Solution Do For Your Business?

Xavor's ECO Dashboard Solution makes managing your change approvals effortless. All of the information and ability needed to make sound decisions are provided up front in easy-to-view layouts with actionable controls all in one table. This creates a high level of user agility with making decisions by simply navigating through a volume of changes and accessing decision data elements.

ECO Dashboards are deployed within Agile and allow a comprehensive and actionable view of Changes requiring your attention. They provide quick access with necessary details to assess change impact and take action. This leads to faster user responses, shorter approval cycle times, improved user experience and effectiveness.

Key features of ECO Dashboard Solution are:

- Group view by change subclasses
- View all key redlines in one screen
- View affected items directly from list
- Open attachments from list
- Send emails to reviewers directly from the list view
- See reviewers' sign-off history
- Take appropriate approve, reject or comment action from the view

ECO Dashboard – One Panel:

- All Changes of all Types assigned to You
- All Affected Items with Redlines
- All Attachment Links of Changes and Items
- Approve
- Reject
- Comment
- Audit
- Redlines
- Includes separate "All Changes Originated by You" dashboard
