

# Excel Integration for Agile PLM

## What Can Xavor's Excel Integration for Agile PLM Do For Your Business?

Xavor's **Excel Integration for Agile PLM** allows you to integrate and update search, BOMs, AMLs and change creation. With Xavor's ingenious integration solution between **Microsoft Excel** and **Oracle Agile PLM**, this can ultimately help Product Teams save time and generate value.

## How It Works

## Highlights

Search & Update	BOM / AML	Change Creation
<ul style="list-style-type: none"><li>Execute PLM Search from within Excel</li><li>Associate Agile Search with a sheet</li><li>Modify required attributes and Update to Agile</li></ul>	<ul style="list-style-type: none"><li>Get BOM and AML in Excel</li><li>Update BOM or AML</li><li>May create new BOMs from the excel sheet</li></ul>	<ul style="list-style-type: none"><li>Updates can be made through a change</li><li>Redlining of changed data</li></ul>

## Updating Data to Agile PLM

By clicking on "Update Current Sheet Data" you can simply open a change configuration window.

## Imported Agile PLM Search

The columns are displayed like they are configured in Agile PLM. There are no limitations on what kind of columns can be imported.

## Exporting Data to Agile PLM

After the update, the Change in Agile PLM has the Item added to its Affected Items tab. It now has a new description and its change controlled attribute is redlined.

# Excel Integration for Agile PLM

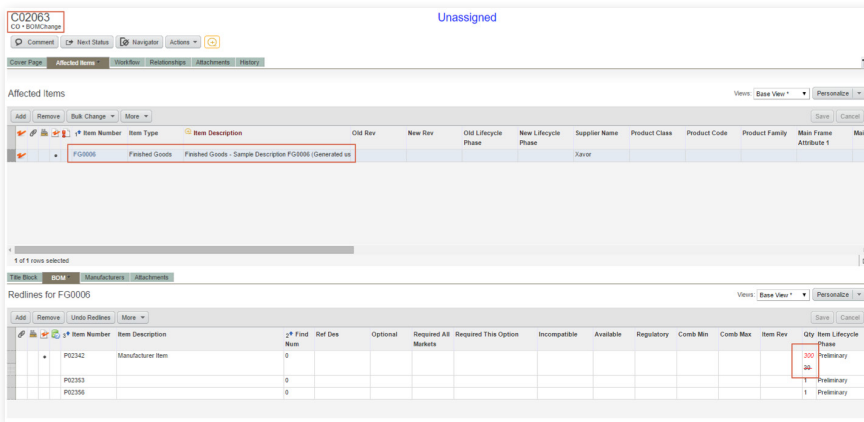

## Importing BOM from Agile PLM

Multiple BOMs can be pulled at the same time by providing a comma separated list of item numbers.

The BOM is pulled from Agile PLM and shown as follows:

	Parent Item	Summary Compliance	Site	Item Rev	Item Number	Item Description	Qty	Delete
BOM of FG0006	FG0006				P02342	Manufacturer Item	30	
					P02342	TEST199	9	
					P02353		1	
					P02356		1	

## Updating BOM

After the update, the Change has been created and the Item has been added to the Affected Items. The change in quantity in the BOM has also been redlined.

## Importing AML from Agile PLM

Multiple AMLs can be pulled at the same time by providing a comma separated list of item numbers.

The AML is pulled from Agile PLM and shown as follows:

	Mfr. Name	Mfr. Part Number	Mfr. Part Description	Mfr. Part Lifecycle Phase	Site	Summary Compliance	Mfr. Type	Mfr. Type2	Delete
AML of P02761	Asago	AVG054		Active			Manufacturer	Manufacturer	

## Updating AML

After the update, the change has been created and the item has been added to the affected items. The deletion of the manufacturer has been shown in the redlines.

## Updating All

If all of the sheets opened in Excel are saved searches, BOMs or AMLs, and need to be added to a single Change Order, then you can go ahead and click Update All.
